## ANNUAL OPERATING BUDGET IMPACT (\$000)

### DESCRIPTION

This project funds the construction of a new student resource center (114,100 gross square feet) to support both study and student services as outlined in the Germantown Campus Facilities Master Plan, 2002-2012. This construction project provides a comprehensive student "one-stop" shop and brings together (1) the campus Library from the Humanities Building, (2) Student Development functions and campus services of admissions, financial aid, registration, and cashiering from the Social and Applied Sciences Building, (3) the Writing Center from the Humanities Building, and (4) the Math Learning Center and Math Technology Lab from the High Technology and Science Center.

### JUSTIFICATION

The key needs addressed by this project are the Library needs for study, stack, processing and service spaces, all significantly constrained in their present location. The current physically bound volume equivalent (PBVE) is expected to grow 1.8% per year or 19% over the next ten years. Also supported in this facility are the media resources and academic computing functions, including the computer training lab. The advantage for the student is the concentration of support resources in a single location. For the campus, space is made available in other buildings that will allow more growth in office space before another building has to be constructed.

### Plans and Studies

Collegewide Facilities Master Plan (1/04).

### OTHER

Funding Sources: G. O. Bonds and State Aid.

State share of project based on anticipated eligible costs. Relocation costs and design fees above approximately 7% of estimated construction costs may not be eligible for State reimbursement.

### APPROPRIATION AND EXPENDITURE DATA

Date First Appropriation	FY07	(\$000)
Initial Cost Estimate		0
First Cost Estimate
